Job Title: **EHS Program Manager**  
Job Req. #0684  
Department: Indirect Production  
Status: Full-Time, Exempt

## **Job Description**

- Drive 100% EHS compliance with federal, state, and local regulatory requirements
- Serve as the GCS interface with regulatory entities and agencies including but not limited to: EPA, OSHA, CalOSHA, Torrance Fire Department, and AQMD
- Interface with EHS consultant to understand regulatory changes and trends and forecast site impacts
- Drive improvements in site EHS culture, awareness, and accountability
- Communicate EHS expectations to all employees and managers
- Manage all aspects of hazardous waste, consider disposal alternatives and waste minimization and ensure site personnel understand and comply with all environmental permits
- Champion workplace safety and drive implementation of safety systems or improvements that promote safe work habits
- Conduct incident / accident investigations and develop corrective and preventative action plans
- Oversee regular safety audits and inspections of the workplace
- Conduct EHS training including respiratory training and fit testing, fall protection, hazard communication, control of hazardous energies and ergonomics
- Interact daily with employees to promote safety programs and accident prevention

## **Job Requirements**

- Bachelor's Degree
- 3 years of EHS experience in a manufacturing environment
- Strong preference for EHS experience at a semiconductor equipment manufacturing facility
- Ability to read and understand operational procedures, governmental and internal regulations, and safety data sheets
- Excellent communication, interpersonal and analytical skills; experience writing technical reports
- Fluent in use of Microsoft applications and ability to quickly learn new computer programs/applications
- Must have the ability to work independently and to plan and implement EHS programs
- Must be able to travel and work at other GCS facilities and factories
